Trend-In

It's July, and the rains are here to stay for a few months. Make sure your home has a combination of these elements - bold colour, pattern and wild textures. You'll make a big impact without spending too much a dime

Standing out as a perfect statement piece for both outdoor and indoor, Gaia coffee table created by Albino Miranda features unique shape and style, and comes in several finishing options. Weighing 48kgs, the outer body of the table is made of resin reinforced with fiberglass finished in bronze colour while the inside body features same material and is finished in pale gold colour. Choose from a variety of finishes and is ready for those eye balls! (www.karpa.pt)
